

## Cherokee Triangle

Wednesday, 02 May 2007

For once the weather for Cherokee Triangle was very nice and there was an excellent turnout. I have heard that several artists did not do very well, even with the large crowds. Others said that it was a good fair for April. I can't really speak for others but I had a very good fair and more than doubled my sales from the previous year. Granted I did not sell all that much last year but for my second year of art fairs, I am quite happy. I even recieved several commissions.
